## meet. connect. do business.

### A real opportunity to do business

The sustainable estates forum gives you unprecedented access to key decision makers who are notoriously difficult to schedule time with.

Through a tailored schedule of pre-arranged meetings we enable you to develop relationships that pave the way to real business.

### A proven model

The se forum connects suppliers with those charged with delivering sustainable solutions including architects, contractors, local authorities and estates teams across education, healthcare, leisure, residential, and commercial sectors. From planning, design and construction of new facilities to the operation, maintenance and renovation of existing stock.

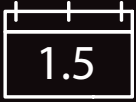

### Our project delegates want to meet with suppliers of..

*Air Handling/Natural Ventilation, Biomass, BREEAM & Soft Landings, CHP, Cladding & Curtain Walling, Doors, Energy Management, Flooring, Furniture/ Furnishing, Green Infrastructure, Green Roofs, Lighting, Offsite Systems, Paints – Low VOC, Passivhaus, Recycled Materials, Renewable, Energy & Energy Efficiency, Roofing, Solar, Taps & Water Saving Systems, Walls & Ceilings, Water Recycling & Saving, Windows/Glazing Products and many more...*

### Sectors covered include...

*Residential, Commercial, Higher Education, Schools, Healthcare, Sports & Leisure, Retail & Corporate.*

OVER 1 ½ DAYS

TAILORED MEETING SCHEDULE

## meet. connect. do business.

Meet with those working on active projects in the UK including estates teams across residential, commercial, education, healthcare, leisure and retail sectors as well as architects, contractors, local authorities, and other senior professional involved in specification & procurement.

Our forums give our delegates time to focus; away from their day-to-day distractions ensuring better conversations resulting in more memorable and meaningful relationships.

In 2017, we facilitated over 5,000 one-to-one business meetings. It's a powerful endorsement that so many supplier delegates re-book year on year often attending several of our forums.

*A sustainable, built environment is an ambition that unites the entire supply chain, from designer and builder to supplier and client. Great design and great products lead to resource-efficient, environmentally responsible (and cost-effective) buildings. Sustainability is high on the agenda of everyone involved in today's estates and facilities and has become a key driver in the design, build and delivery of both new build and refurbishment projects.*

### What you get

- Tailored meetings scheduled pre-event
- Overnight executive accommodation
- All refreshments & meals including the gala dinner
- Entry to all keynote seminar sessions

### What the suppliers say about our forums...

#### Conti +

“ I believe it would have taken months to create my meetings agenda and it would have involved many more miles on the road, with hotel and petrol costs to consider. In summary, great value for money. ”

#### Geyser Thermal Energy

“ The se forum was a great success, bringing suppliers and project delegates together. We had multiple top level meetings with key contacts; a great basis for follow up meetings. I would advise any business looking to increase its sales to attend a Stable forum. ”
